MARY E. DIANDREA,
Per gfb DEPUTY CLERK

RE: Evidence; Case No: 01-CV-757

Clerk;

I am presenting to the court for examination, One (1) Right Hand Cock-up Wrist Brace, that was issued per Dr. Daniels, Medical Department, Cumberland County Prison.

I am also presenting to the court for examination, One (1) Left Hand Cock-up Wrist Brace, that was at my home residence.

Left Hand Cock-up Wrist Brace, is to demonstrate proper form and design so that it may produce medical results it was designed to do.

Attached is a brief discussion pertaining to each brace.

Please enter said evidence along with evidence already filed with the Clerk of Courts, so that the Court may examine it at a later date.

Very truly yours,

Randy Alan Starner

Randy Alan Starner

Place: Cumberland County Prison.

Plaintiff; Civil Action, No: 01-CV-757
wishes to submit for examination:

(one (1) Right hand cockup wrist brace)

Plaintiff submitting said brace
to substantiate statements made within hand
written addendum to Complaint;

Add. Page, 9 - Monday - 2.26.01; That even
ing, wrist-brace arrives, without support sta
(Part that keeps wrist from bending)

Add. Page, 10, 11 - Wednesday - 3.7.01; DR
Woods stated; Brace was no good because
of no "stay" wrist support, another type
of brace ordered.

Add. Page, 12 - Saturday - 3.17.01;
New brace arrives, new brace same as old
brace. "Support Stay Removed"

Add. Page, 12 - Monday - 3.19.01;
Went to Medical Department pertaining to
brace, once again brace taken back "No Wrist
Support"

Add. Page, 13 - Friday - 3.23.01;
Brace returned with tongue depressors sewn
into area where original support piece goes.

Therefore: Right hand cock-up wrist
brace that I submit for examination; is
not in proper form, "cock-up stay", orig-
inal stay that lifts and holds hand in
an upwards position, to alleviate pres-
sure on wrist.

By not being in proper form, pertaining to tongue depressors, "altered" said brace is not performing medically, as it was designed to do, "cock-up" support hand in upward position, to alleviate pressure on wrist.

Plaintiff; Civil Action, No: 01-CV-757
wishes to submit for examination:

(one(1) Left hand cock-up wrist brace)

Plaintiff is submitting said
"Left hand cock-up wrist brace from my
home residence. Said brace was needed
after surgery (metal plate inserted) to al-
leviate pressure on wrist and metal plate
so the bone could weld to metal plate.

Plaintiff is submitting Left Hand
Brace along with Right Hand Brace the
prison gave plaintiff, so the court has
clear and viewable understanding of
what a cock-up brace is designed medi-
cally to accomplish.

SURELY after viewing and comparing, the Honorable Court can only reach the true conclusion, that the Right Hand Cock-up Brace provided by the Dr. Daniels / medical Department Cumberland County Prison as inadequate.
